

AREAS OF INTEREST

Morris Animal Foundation is seeking Pre-Proposals in the areas listed below:
(Morris Animal Foundation will consider Pre-Proposals in other areas.)

CANINE

Cancer
Cardiovascular Diseases
Endocrine Disorders
Gastrointestinal Diseases
Geriatric Diseases
Glaucoma
Heartworm
Hematologic Disorders
Hereditary Disorders
Hip Dysplasia
Infectious Diseases
Immunology
Integumentary Diseases
Neurological Disorders
Overpopulation/Contraception/Sterilization
Urinary Diseases

EQUINE

Developmental Bone Diseases
Foal Diseases
Gastrointestinal Diseases
Geriatric Diseases
Hereditary Disorders
Infectious Diseases
Immunology
Laminitis
Neurologic Disorders
Ophthalmology
Pulmonary Disorders

FELINE

Cancer
Cardiovascular Diseases
Endocrine Diseases
Heartworm
Immunology
Infectious Diseases
Gastrointestinal Diseases

Hematologic Disorders
Overpopulation/Contraception/Sterilization
Pulmonary Disorders
Urinary Diseases

LLAMA/ALPACA

Congenital Diseases
Gastrointestinal Diseases
Genome Mapping
Infectious Diseases
Nutrition
Parasitic Diseases
Pharmacological Studies
Reproductive Disorders
Thyroid (e.g. TSH, T4, T3, free T4, auto-antibodies for thyroid proteins, etc.)

WILDLIFE/SPECIAL SPECIES

Anesthesia
Behavior
Companion Avian Nutrition
Contraception for Population Management
Infectious and Non-infectious Disease/Immunology
Mountain Gorilla Health
Nutrition
Prevention/Epidemiology of Disease
Reproduction
ALL SPECIES

ALTERNATIVE/COMPLIMENTARY MEDICINE

Alternative medical treatments used exclusively or in combination with conventional methods of treatment.

EMERGING CONDITIONS

Newly recognized or emerging diseases that have potential for broad impact, including zoonoses, and for which information is limited.
